BALL NAME Origin™ EX FLARE High  
 COVER RB 89™ Solid Reactive SKU GOE  
 CORE Ellipse™ Asymmetric A.I. Core  
 FINISH 2000-grit Abralon®  
 COLOR Orange/Red/Plum

The Origin EX will fit perfectly between the Harsh Reality and Origin. The RB 89 Solid Cover is non-nano based. This will make it cleaner and more responsive to the friction compared to other textured bowling balls with nano. The Ellipse A.I. Core features a dual procession asymmetric design which creates a truly unique asymmetric reaction built upon maximum torque at the breakpoint.
