

# OPTIMUM IDOL Pearl

## BEHIND THE DESIGN:

Due to the overwhelming success and popularity of the first Optimum IDOL™, we felt it was a must to spin it forward with a version that perfectly complements it. Not to mention this marks the first time ever we have introduced an IDOL Series ball in the domestic market with our nanoparticle pearl coverstock formula.

ON THE INSIDE... just like the Optimum IDOL you will find the Ikon + A.I. Core Technology.

ON THE OUTSIDE... you will find the MicroTrax™ Pearl Reactive coverstock (most recently used on the Exotic GEM™) which provides the optimum traction footprint in oil while providing plenty of responsiveness to friction down lane.
